Hi Cheryl,

I spoke to Melanie Garvey and it sounds like FFEO will be supportive of reprogramming funds (or possibly approving additional funds) for this inspection. She said they will first need a short justification statement (about one paragraph) that she can submit for approval. Sorry for the delayed response. I was out of the office last week and will be on travel next week as well.

Matt

Re: Contract funds for Hanford groundwater inspection Subject:

Matt.

The RCRA compliance unit is supportive (very) of this project. We believe that the inspection will provide valuable information on the adequacy of the ground water monitoring system around the units in question (which we do not have complete information on at this time), and will informed the current permit renewal that is being developed.

If FFEO can support this project, Dave will be the lead on this project, and he may seek some support from Adam Baron on the RCRA Compliance Team if necessary. If the funds can be reprogrammed to the Region's REPA contract. Jack Boller will be the COR.

Please let me know if there is anything else you need from me. As always feel free to contact me with any questions you may have.
